APICULTURE NEW ZEALAND PETER MOLAN AWARD EXCELLENCE IN APICULTURE SCIENCE

Dr Peter Molan was responsible for placing our industry at the forefront of the international apiculture community. His work on the anti-bacterial properties of Manuka Honey was pioneering and from those early days our industry has grown substantially, as have the fortunes of those industry participants who took up the challenge and took New Zealand Manuka Honey to the global market.

The Peter Molan Award was instigated to recognise the efforts of an individual member, or team of people from within the Apiculture Industry, who have made an outstanding contribution in the field of Apiculture Science to advance the betterment of our industry.

It is an honour to be a recipient of this award and to be recognised by the Apiculture Industry. The award trophy comes with a Certificate of Recognition and a substantial Research & Science Grant. The trophy will be retained for life.

The award will be judged jointly by the Governance Board of Apiculture New Zealand, and the APINZ Science & Research Focus Group, with the APINZ Chairman presenting the trophy to the winner at the Conference Gala Dinner in that year.

A Certificate of Recognition and the Research & Science Grant will be presented by the sponsor Watson & Son Ltd.

We now call for nominations from industry; please complete the information required and email to: conference@apinz.org.nz

The criteria for nomination:

- **The nominee has made an outstanding contribution in the field of apiculture science in New Zealand.**

We note that the award may not be presented annually, more importantly it is destined to recognize absolute achievement within Apiculture Science.

Nominations close: Sunday 15th May 2016
